

# A GRANDMOTHER'S LOVE Project

Vesta, along with your help, is initiating a campaign in support of long term implementation of Bulgaria's "A Grandmother's Love Project", to ensure its sustainability for a period of one to three years. We need your help in sustaining this project. The impact on a child's well-being and development is significantly improved when a child receives this individualized attention from a "Grandmother".

Your donation of \$120 USD will provide the monthly salary of a "Grandmother", and benefit two children with a daily minimum of four hours of playful, nurturing and interactive care. Your donation of \$1400 USD, provides a year's worth of "Grandmother's" care to a child. Your contribution and support, significantly impacts a child's life and creates a developmentally healthy emotional bond with a caring adult. This experience allows a child to develop its social skills, a priceless gift to institutionalized children. We believe that small heart-felt gestures of kindness and empathy, are big steps towards improving the lives of many suffering children in Bulgaria.

Your small monthly donation or single annual gift is the most effective way to support and sustain the dedicated resources that truly change the lives of children. When you make a donation, it allows us to plan and implement sustainable long-term projects like this.

## Project: MAKING SMILES

With immense hope, we ask for your support of children deprived of parental care. The children are between 3 and 18 years old and they need your help so much right now. Your small gift can provide warmth to children without proper shoes or coats. Will you help the children receive shoes and clothes?

Join us and send your gift today. Make a difference in the emotional well being of a child and support our mutual efforts to ensure no child is without warm clothes, shoes or a Grandmother's Love.

**These projects are seeking your direct support or support through one of our partners in your country.**

**Yes, I want to help!**
